## FIRE DESTROYS BIG PART OF CORK SAT.

FOLLOWS THE SHOOTING OF MILITARY PARTY FROM AMBUSH

On South Side of River Lee Carnegie Library, Corn Exchange and Other Buildings Burned to Ground—Much Hay in Business Section—Last Report Says Fire Under Control But Damage May Run to 3,000,000 Pounds Sterling—Lives May Be Lost

DUBLIN—Several large sections of Cork were devastated by fire Saturday night and Sunday. The conflagration followed the shooting from ambush of a military party Saturday.

On the south bank of the River Lee the Carnegie library, the corn exchange and other buildings were razed by the fire, while in the territory between the northern and southern branches of the river much hay was wrought by the flames in the business section.

Late Sunday evening it was reported that the fire was under control, but it was said that the damage done by the flames was estimated at between 2,000,000 and 3,000,000 pounds sterling.

## ONE OUT OF EVERY 159 IN U. S. IS ON CIVIL SERVICE PAY

WASHINGTON—One person out of every 159 in the entire country was on the government pay roll last July 31, the civil service commission declared in its annual report. The commission adds that of those estimated by the census as employed in gainful occupations in the country one in every 68 was a government worker.

The total number of civil service employees last July, the commission says was 901,110 and the government was using them in approximately 1,700 different kinds and grades of work.

There were almost a million government employees at the height of the world war, the commission asserts and adds that pre-war figures of some 480,000 in 1915 probably never again will be reached. The commission declares that an "altogether rosy picture cannot be painted" of the government's personnel situation.

A partial tabulation of the great army of government employees fixes the average age at 28.4 years and the average salary at \$1,176 a year, exclusive of the \$240 yearly bonus which many of the employees receive.

The commission's recommendation for placing all postmasters under the civil service is renewed.

## MASONS TO INSTALL OFFICERS ON 24TH

At the regular communication of St. Cloud Lodge No. 221, F. & A. M., on last Friday evening, the following officers were elected to serve during the coming year:

Worshipful Master—J. E. Diefendorf  
Senior Warden—Otto Bleech  
Junior Warden—A. E. Cowger  
Treasurer—Samuel Brammar  
Secretary—L. U. Zimmerman

The installation of the new officers will take place at the next regular communication of the Lodge on Friday evening, December 24th. All members are urgently requested to be present, and a cordial invitation is extended to all visiting members of the order to attend this and all other meetings of the Lodge.

## MILES O'RILEY, NEW YORK, DIES

Miles O'Riley, retired police captain, of Brooklyn, N. Y., veteran of the Civil War, and one of the most picturesque and best loved characters in the older life of Brooklyn, died at 9 o'clock on the morning of Wednesday, December 8th, at his home 775 Quincy street, Brooklyn, N. Y. He was 78 years old and has many warm friends among the St. Cloud veteran colony who will regret to learn of his death. The Brooklyn Eagle of December 8th contained a brief history of O'Riley's life, which was furnished the Tribune by Mr. T. S. Rider, an old friend of the deceased and a regular winter resident of St. Cloud.

## FIVE MILLION CHRISTMAS TREES

USED BY THE AMERICAN PEOPLE TO MAKE MERRY

The United States Department of Agriculture estimates that five million Christmas trees are used each year by the American people and the sale of these trees has become an important item in the farmer's income.

Christmas trees may not be as heavily loaded this year as usual but their appearance will bring joy to young and old alike.

What shall I give for Christmas presents? This is the problem of the hour all over the world. In solving it most people like to include something useful among their gifts, and that is especially appropriate at this time. Presents can be so selected as to give your boy or girl the foundation of an education or provide for any desired object which you are trying to attain. Give them Treasury Saving Stamps or Certificates, which will mature in sums of \$5, \$100 and \$1,000 within five years and in the meantime may be cashed in case of need on short notice. You pay less than the face value, so that the \$5 \$100 or \$1,000 you receive at the end of five years will realize four per cent compound interest on your investment.

The value of these securities increase each month and this is plainly shown on the face of the certificate each month. There is no possibility of depreciation. This is one of the few things not affected by the slump in prices. The government stands ready to pay the face value, with interest included, at any time on short notice. It will redeem savings stamps at the postoffice on ten days' notice and pay the certificates at the Treasury Department on demand.

Such a present is a fine thing for your wife to provide something that is dear to her heart, and the amount may be adjusted to suit the case. Give these securities regularly and you can buy furniture, buy a house, pay for a college education or secure almost anything you want, if you continue the plan.

After the first of the year the Government will put on two new securities—a \$1 savings stamp and a \$25 savings certificate. The \$1 stamp is a very convenient denomination, which is sure to be very widely used, and may be used in buying \$5 stamps, \$25 certificates or even larger ones.

Ask your postmaster for these stamps and \$25 and \$100 certificates and your banker for the \$1,000 certificates. If you have any difficulty in getting the certificates, write to Silas W. Davis, Director War Loan Organization, Rhodes Building, Atlanta, Ga., and you will receive a prompt reply.

## MRS. VEEDER ENTERTAINS IN VERY NOVEL MANNER

On Wednesday afternoon, Dec. 8th, Mrs. Mary Veeder opened up her beautiful home to the public for the first time in four years. Over two hundred guests partook of her hospitality and enjoyed her curios and antiques, to say nothing of some wonderful modern pieces of beautiful laces, quilts, sofa cushions and other works of art. From two until four, coffee, sandwiches, cake and ice cream were dispensed by Mrs. Veeder and her aides. Capt. Nascen and Mrs. Constance Harris Zellers delighted the gathering with solos. Mrs. Veeder was as usual the center of attraction, being clad in her Indian costume which was duly admired by all. Indian palmetto dolls were sold and carried off by tourists as souvenirs of Florida. Over one hundred dollars was received which will be used in a good cause. A great deal of thanks is due Mrs. Veeder for making the afternoon a perfect success from start to finish.

## DONEGAN-SIMPSON NUPTIALS

Mrs. Bessie Bryan Simpson and Mr. Arthur E. Donegan announce their marriage on December 12, 1920, at St. John's Episcopal Church, Kissimmee, Florida, the Rev. L. H. Kirkby officiating. While the wedding was a very quiet one, with only a few relatives and friends present, their many friends throughout the state will be interested and will wish them much happiness.

Immediately after the ceremony, Mr. and Mrs. Donegan left for points west. After January fifteenth 1921, they will be at home to their friends at Orlando, Florida.

## A Call From St. Cloud

Dear friends in the Northland  
Oh hasten away  
From trees that are leafless,  
From skies that are gray,  
From valleys snow drifted,  
From rivers ice bound;  
For here in the Southland  
A place we have found  
Where lake like a mirror  
Reflects on its breast  
The shores ever green  
Like the shores of the Blest.  
In this spot thus by nature  
So richly endowed  
Is the wonderful city  
Of bonny St. Cloud.  
Here trees are all laden  
With fruitage of gold,  
Here flowers ever blooming  
Sweet beauty unfold,  
Blue skies with bright banners  
At day-dawn and eve  
Bid you lift up your eyes,  
God's grace to receive.  
The mocking-bird calls you,  
The blue-jay is here  
To give you a welcome  
With carols of cheer.  
While others are coming  
Oh come with the crowd  
And bask in the sunshine  
Of bonny St. Cloud.

## SOUTH FLORIDA FAIR AT TAMPA, FEBRUARY 3-12

TAMPA—Twenty-one counties including several of northern and western Florida, are now enrolled in the departments of exhibition of the South Florida Fair, the dates of which are February 3 to 12, and indications are that several will be added to the list when the newly-elected boards of county commissioners assume office in January. Thus the greatest state or sectional fair of the southern history is assured from an exhibition standpoint, and thousands of tourists from all sections of the nation will have the privilege of learning what Florida in every section is capable of producing. To the county exhibits will be added those of Mexico, Canada and Holland.

Twelve free acts, twice the number usually shown, will be presented before the grandstand each afternoon and evening, including thrill-producing novelties that have never been shown in Florida heretofore.

In order to meet the greatly increased demand for exhibition space, directors of the fair began their annual building program last week, and several new buildings will be added before the fair gates open. The number of County, Individual and other exhibits will be trebled.

The Seaboard Air Line, Atlantic Coast Line and other railroads will

grant extremely low round trip rates from all points in Florida, and a record attendance is expected from all sections of the union. Tampanians are making systematic preparations for housing and feeding the visitors.

## BRICK PLANT IN KISSIMMEE BADLY DAMAGED BY FIRE

KISSIMMEE—The mixing, pressing and finishing department of the Tucker Tex-Brick plant was totally destroyed by a fire of unknown origin, discovered by a nearby resident at 6 o'clock Sunday morning. An alarm was sent in when the first curl of smoke was noticed, but before the spot could be reached by the fire department the entire section of the building was wrapped in flames. Loss estimated at \$20,000. No watchman was on duty. The company just closed a large contract for furnishing its perfected paving brick, and was about to pave a section of Kissimmee's avenues, but there will now be a delay of several months before shipments can be resumed.

The schools of Osceola county will close tomorrow afternoon for their holidays and will re-open again on Monday January 3rd.

The County school board will meet on Thursday of next week to attend to the December business of that board.

## CHILDERS—POWELL

Mr. Hugh Childers and Mrs. Mazie Powell, both of St. Cloud, were united in marriage at the home of the bride's parents, Mrs. McCormick on Ohio ave., at eleven o'clock this morning by Justice of the Peace S. W. Porter. The couple immediately left on the noon train for their honeymoon to points in the north, and will return shortly to make their future home in St. Cloud on Ohio avenue, in what was formerly the Rath place.

The couple are well known in St. Cloud, and will receive the congratulations of their many friends, whom the Tribune joins in extending its best wishes for the future.

JACKSONVILLE, Dec. 15—"Don't wait until symptoms of lock-jaw appear following injuries from fireworks" is the warning of Dr. Ralph N. Greene, state health officer, who is spreading before the holiday season a message of prevention from the State Board of Health. "After lock-jaw symptoms appear it is often impossible to save the patient. However, lock-jaw can be prevented in a great majority of cases by the administration of tetanus (lock-jaw) anti-toxin."

The Christmas season always brings a number of injuries from fireworks and each hurt is a source of great danger. Dr. Greene says that no matter how trivial an injury of this kind may appear immediate attention should be given.

"The first thing to do is to thoroughly cleanse and disinfect the wound with tincture of iodine. Then call a doctor and have tetanus anti-toxin administered. This anti-toxin is not a cure for lock-jaw, but it is a preventive and is highly effective as such. After tetanus symptoms appear it is often impossible to save the patient."

Extreme care should be taken in the handling of all fireworks, Dr. Greene advises. The smallest wound may result in lock-jaw, and his warning is being sent broadcast throughout the state in an effort to prevent Christmas fatalities. Tetanus anti-toxin is furnished free by the State Board of Health.

## DISTRICT MEETING OF ODD FELLOWS

A district meeting of the Odd Fellows Lodge was held at Orlando last Monday at which all of the Lodges in St. Cloud, Eustis, Orlando, Sanford, Leesburg and Kissimmee were represented.

From St. Cloud the following persons were in attendance: T. L. Comer, J. E. Laffey, J. H. DeGraw, W. C. MacMurray of Indiana, C. H. Smith of Wisconsin, T. B. Crocker of New York, H. T. Parcell of New York, F. F. Clark of Connecticut, Wm. Hansell of Ohio, J. L. Cummings and J. F. Bullard.

A break down of the truck carrying the Kissimmee delegation caused quite a number of their members to be laid over at Taft, only three who started to Orlando reaching there in time for the meeting.

Sanford was represented by a delegation of twenty-eight members.

Leesburg was represented by seven members and an invitation of the Leesburg Odd Fellows Lodge to hold the next district meeting at that place was accepted, and all Odd Fellows and Rebekahs are invited to attend the next district meeting in Leesburg the third Wednesday afternoon in March, 1921.

## BIRTHDAY PARTY FOR MISS MILLER SATURDAY

A birthday party was given in honor of Miss Althea Miller at the home of her parents on Pennsylvania avenue and Sixth street last Saturday afternoon. The girls present for the occasion enjoyed a pleasant afternoon spending the time in games and other sports. Refreshments of cream, cake, candies, punch, sandwiches and fruit were served. Two prizes were given, Miss Margaret Stewart received a pen and Miss Florence Coyle a box of stationery. Those present were: Misses Dorothy Wells, Winifred Lockwood, Alice Gunner, Grace Wallace, Vivian Wilson, Catherine Krause, Florence Coyle, Margaret Stewart, Geraldine Johnson, Roberta Buckmaster, Alice Bracy, Gerard and Althea Miller.

## ONE-THIRD MEXICO'S SILVER AND COPPER MINES CLOSED

MEXICO CITY—With approximately one-third of the republic's 3,500 silver and copper mines closed because of the low market prices of these metals, the government this week will take emergency measures to prevent complete paralysis of the industry, according to a treasury department statement. More than 500,000 laborers would be made idle if all the mines closed.

**THE GIANT CALIFORNIA  
NEARING COMPLETION  
CREW TO BE RECRUITED  
FROM NATIVE SONS.**

Workmen are driving the finishing rivets into the superstructure of the great super-dreadnaught California—and sister ship to the Tennessee—and ere many months go by she will be making her trial trips. The California is a true product of the Golden State, and represents its workmanship, built at the Mare Island navy yard in California, and, like the Tennessee, will be manned by native sons of the state.

The keel of this monster fighting machine was laid Oct. 18th, 1916, but during the war the workmen assigned to fabricate her turned their tools to the building of destroyers, so she is somewhat late in being completed.

In the use of electricity as a means of propulsion, the California follows

the example set by the New Mexico and Tennessee. Besides being electrically driven the ship will be electrically operated from her guns, galley, and bakeshops to her potato peelers and sewing machines. The inset above shows a chief petty officer standing inside one of her four rotors before it was put in place in her engine room.

The California was launched Nov. 20, 1919, at the navy yard, Mare Island, and was sponsored by Mrs. Randolph T. Zane, daughter of Governor Stevens. The ship is the latest addition to the American navy and was designed by master minds sharpened by the urge of war and represents the ultimate in fighting fitness. Many lessons learned during the war in ship construction have been built into her.

The normal displacement of the California will be 32,000 tons; length 624 feet; beam 97½ feet; draft 31 ft.; speed 21 knots (24 land miles); and an armament consisting of 12 14-in. 50 caliber guns, one of which is shown above with 50 or 60 bluejackets comfortably standing upon it, and 14 5-in. 51 caliber; 4 3-in. 50 caliber anti-aircraft; 4 3-pounders (saluting) and two 21-in. submerged torpedo tubes.

When commissioned the early part of 1921, this great vessel will be assigned to the Pacific fleet and it is said that she will be made the flagship of the Commander-in-Chief of that important station. A crew of all Californians will man her, and great strides have already been accomplished in recruiting and assembling these men.

men and women have become investors in Florida and they are constantly increasing their investments and bringing their friends here to make other investments. The best of it all is that these investors have made profitable investments or at least in most cases where they cared to turn them over they have made handsome profits but it all goes back into greater investments.

Again we say it all means a remarkable development and expansion for Florida and the next ten years should see such improvements and increases in population and wealth that the peninsular state should be well in advance of any tourists section in the world.—Times Union.

#### TWENTY-NINE WOMEN ELECTED TO LEGISLATURES

New York.—Twenty-nine women were elected to state legislatures in the recent election, this number being equal to approximately half the total for all the preceding years, according to a list compiled by the National Woman's Suffrage Association.

Connecticut leads the nation with five women representatives, and most of the other gains were made in the east.

The list of women legislators by states follows:

California: Mrs. Anna D. Saylor, Mrs. Elizabeth Hughes, Miss Esto B. Broughton.

Connecticut: Mrs. Emily Brown, Mrs. Lillian M. Frink, Mrs. Mary W. Hooker, Mrs. W. A. Jewett, Rev. Grace I. Edwards.

Idaho: Mrs. Bertha V. Irwin. Indiana: Mrs. Julia Nelson. New Jersey: Mrs. Margaret B. Laird, Mrs. Jennie C. Van Ness.

Kansas: Mrs. Minde L. Grinstead, Miss Nellie Cline, Mrs. Jennie Minnich, Mrs. Ida M. Walker. Michigan: Eva Hamilton. Montana: Mrs. Margaret Smith Hathaway.

Nevada: Miss Ruth Averill. New Hampshire: Mrs. Mary Rolfe Farnham, Miss Jessie Doe.

New York: Marguerite L. Smith. Oklahoma: Mrs. Lemar Looney, Mrs. Bessie McCollin.

Oregon: Mrs. W. S. Kinney. Utah: Mrs. Closson S. Kinney, Mrs. May B. Davis, Mrs. Clero Clegg.

**COST A TOTAL OF JUST \$1,651,191.99**

**LARGEST ITEM IN BILL SUBMITTED BY THE PRESIDENT WAS FOR FOOD, HOTEL AND KITCHEN SUPPLIES**

WASHINGTON—A special message giving the complete expenses of the American peace commission during its work abroad was submitted to the senate by President Wilson.

The president said a partial report of the peace commission's expense was made last year to the house, but that today's document covered its entire work from Dec. 1, 1918 to Dec. 31, 1920.

The total expenditures amounted to \$1,651,191.09 from December 1, 1918 to Dec. 4, 1920. The amount actually paid out was \$1,703,712.00, but the repay-

ment and gains in exchange reduced this by \$52,520.97.

Some of the larger items were: Travel and subsistence, \$28,442; subsistence, \$193,620; salaries, \$200,871; wages and employees at Hotel Crillon, \$151,507; rents \$170,853; food hotel and kitchen supplies, \$283,560; hire and laundering of linen at hotel, \$64,060; damage and loss of property at hotel \$125,870.

Various missions cost \$239,726; purchase of automobiles amounted to \$14,902; and "confidential expenses of presidential party," \$17,734.

#### MANY NEW WINTER VISITORS

Time was when the winter visitors were nearly all known to the leading hotels and old residents of Florida, but that condition has changed materially with the immense increase of tourists.

Each year sees many thousands of new people and most of the old visitors return, so the endless chain continues to lengthen out and the increased accommodations provided are taken up as soon as they are ready and there is always a shortage.

This year the strange faces arriving almost outnumber the regulars, according to the officials at the union depot and along the lines of travel through the state. This apparently presages an increase that will far out-reach any normal gain of other years, in fact it is believed that the number of visitors to the state this year will exceed that of last year by nearly fifty per cent.

Now what does this mean? It means that every tourist city and town will be terribly crowded and in order to provide accommodations every commercial city and town will have to be turned into a resort center and even the villages and out of the way places will be enlisted to provide accommodations for the throngs of visitors who are coming by train, boat and automobile.

This means that Florida must get busy at once in preparation for a still greater season next winter, as the momentum gained this year will be accelerated from natural consequences. Every new visitor returns home filled with enthusiasm and praise for Florida and their special advertising results in bringing anywhere from one to a dozen new people the next season. The influx to California ten and twenty years ago was thought to be something remarkable but it was a mere trifle as compared with the tourist travel to Florida in 1920.

With the splendid advertising that is being done by Florida, in a hundred different ways and through all sorts of channels, there is every reason to believe that the number of winter residents, tourists and visitors will far exceed the normal population. However, the latter is constantly increasing as a result of this wonderful influx of visitors, as many of them fall in love with the state, its magnificent climate and resources and become permanent residents.

## DECAY OF CITRUS FRUIT IN TRANSIT

(By O. F. Burger)

With most fruit it takes fifty-one weeks to produce a crop and one week to market it. In this one marketing week fifty-one times more care should be taken than in any one of the previous producing weeks. However, there is where many growers fail—they take less care in marketing their fruit than in growing it.

During the fall and winter of 1918-19 from 10 to 15 per cent of Florida fruit decayed on the way to market. This was a loss of at least 800,000 boxes of fruit. This decay was due largely to blue mold. It has been shown repeatedly that this decay is not caused by inherent weakness of the fruit, but by bad handling. During the war it was impossible to obtain good help, but that condition has been remedied and good labor can now be obtained. Scientific workers have proven that a wound in the fruit is necessary before blue mold fungus can enter.

### Do Not Injure Fruit

The foreman of the picking crew is responsible for much of the decay. It is his business to see that each picker leaves no long stems or makes clipper cuts and must also examine field boxes and see that all protruding nails and splinters are removed and sharp corners rounded. Care must be taken in emptying the fruit from the picking bags that the fruit is not injured. As far as results are concerned, every injured fruit is a rotten fruit.

In the packing house the fruit must not come in contact with sharp edges of machinery. Washers and bins must be so constructed that the fruit is not crowded or given violent motion. The packers must wear gloves to avoid injuring the fruit with their finger nails.

Blue mold fungus lives on organic matter. In many groves dropped and split fruit are sources of infection. Mashed fruit and culls left lying about in the packing house furnish ideal conditions for the multiplication and the growth of blue mold. All drops in the groves should be removed. Packing house and field boxes should be thoroughly cleaned. Crushed fruit and culls should be kept out of the packing house.

Most fruit is sold by auction companies. Each lot is graded and sold according to general appearance and the amount of rot. A few decayed oranges will greatly affect the price. A little care at the time of picking and packing will make a great difference in the returns.

### False Theories of Decay

Several years ago the cause of this decay was not fully understood. Many theories were advanced by growers and shippers to explain their losses. Some attributed the decay to the influence of a certain type of soil, causing a possible degeneracy in the fruit as the trees grow older.

Others believed it to be due to climatic conditions, such as fogs and rains. Many thought it due to inherent weakness of the fruit. Some believed to be due to faulty methods used in packing houses. All believed and agreed that improper and inadequate transportation was largely the cause of the decay.

A certain grower in Florida was losing 30 per cent of his fruit in transportation. He thought it the fault of the railroad companies. He found by investigating that it was due to clipper cuts and long stems.

Railroad companies are not responsible for decay, if cars have been properly handled during transportation. They have a right to fight claims for loss in such cases.

If the produce arrives on the market in an unsightly, decaying mass, it sells as such. Good fruit sells for less, if there is decayed fruit in the same box.

## TREASURY HEAD WOULD INCREASE TAX ON INCOMES

ADDITIONAL LEVY OF TWO PER CENT ON INCOMES UP TO FIVE THOUSAND DOLLARS URGED.

The Repeal of Some Taxes Is Advised

LOSS BY THEIR ELIMINATION TO BE MET BY REVISED AND NEW LEVIES.

WASHINGTON—Immediate revision of the nation's tax laws on the basis of an annual levy of four billions of dollars for a period of four years, and including an increase of 2 per cent in the taxes on incomes up to \$5,000, is urged by Sect. Houston in his annual report to congress last week.

Repeal of the excess profits taxes, elimination of certain of the so-called luxury taxes, including the levy on soda fountain beverages, and a readjustment of the rates in the higher groups of income taxes, is proposed by the treasury chief. To meet the losses brought about by these proposed changes, Mr. Houston recommended revised and new taxes to yield about \$2,000,000,000 as follows:

Tax of 20 per cent, on corporation profits, distributed or undistributed, in addition to application of a higher surtax rate to yield \$690,900,000.

An additional tax of 1 per cent on corporation incomes to yield \$65,000,000.

Readjustment of surtax rates on incomes to yield an additional \$230,000,000.

Abolishment of the \$2,000 exemption allowed corporations on income to yield \$58,000.

An increase from the present 4 per cent to 6 per cent in the tax on incomes of \$5,000 or less and from 8 per cent to 12 per cent in the tax on incomes between \$5,000 and \$10,000, the whole estimated to yield \$150,940,000 annually.

A tax of 2 cents a gallon on gasoline for motor cars and all other purposes to yield \$90,000,000.

A federal license tax of 50 cents per horsepower on the use of motor cars to yield \$100,000,000.

An additional sales tax on automobiles (other than trucks and wagons) and motorcycles and motor car accessories to yield \$100,000,000.

A 10 per cent additional tax on theatrical admissions to yield \$70,000,000.

An additional tax of \$2 per thousand on cigarettes to yield \$70,000,000.

An additional tax of 25 cents per thousand on cigars to yield \$5,000,000.

An additional tax of 6 cents per pound on tobacco and snuff to yield \$8,000,000.

An additional tax of 7 per cent on chewing gum to yield \$2,000,000.

An additional tax on the sale by manufacturers, producers, or importers of perfumes, cosmetics and medicinal articles in lieu of the present tax on the consumer to yield \$10,000,000.

An additional 5 per cent tax on jewelry and precious metals to yield \$25,000,000.

An additional tax of 5 per cent on musical instruments to yield \$13,000,000.

An additional tax of 5 per cent on motion picture films to yield \$4,000,000.

### Lower Tax On Incomes "Saved"

In the readjustment of surtaxes, Mr. Houston proposes the division of incomes into "saved" or reinvested and "spent." On the former class he would limit the highest tax to 20 per cent, while the income spent would be subjected to a tax ranging as high as 50 per cent. Under the plan proposed by the secretary, incomes between \$5,000 and \$6,000 would be taxed 2 per cent on the part saved and the same

on the part spent. The same ratio with a graduated increase would apply to part saved and 25 per cent on spent; \$40,000 to \$50,000 20 per cent and 30 per cent; \$50,000 to 75,000, 20 per cent and 35 per cent; \$75,000 to \$100,000, 2 per cent and 40 per cent, and over \$100,000 20 per cent and 50 per cent or a total tax of 70 per cent.

The present maximum rate is 70 per cent on incomes of \$1,000,000, but Mr. Houston declares it has "long passed the point of its minimum productivity" since it encourages the investment in tax-exempt securities. He says the "only effective way to tax the rich is to adopt rates that do not force investments in tax exempt securities."

The new rates, while not laying as high a levy against the great incomes will, the secretary expects, produce a greater return to the government since the wealthy class will not find it profitable to invest in bonds of states, counties or municipalities which are exempted, but pay a lower rate of interest.

### Tax Should Tap Wasted Surplus

"These possible sources of income are mentioned for the information of congress," Mr. Houston says. "While I shall not attempt to discuss them, attention should be called to the new and additional consumption taxes. Reasons have been given for the belief that no valid object exists to the employment of a moderate number of consumption taxes properly selected, but it would, in my opinion, be neither wise nor expedient to increase the volume of consumption taxes. \* \* \* The articles included in the suggested list of additional consumption taxes have not been selected because their use is particularly harmful or in any sense less legitimate than those not included. Consumption taxes must be judged by practical standards. What should be sought are a few consumption taxes which tap the surplus income which is being wasted, not a conglomerate multiplication of petty taxes upon every article of luxurious or unnecessary consumption which can neither be clearly defined, cheaply collected nor administered without widespread evasion."

The repeal of the tax on soda fountain and other beverages is asked, the secretary says, because the collection of the tax, the aggregate of which is small, has presented an administrative problem of magnitude. Added to that, Mr. Houston says, there has been constant and widespread evasion of such taxes.

### Excess Profit Tax Unfair

The excess profit tax, Mr. Houston declares has not fulfilled the theoretical grounds upon which it was enacted and has been found to be wrong both in theory and in political philosophy. He says it discriminated against the conservatively financed corporation while aiding materially the firms whose capitalization is exaggerated. He urges that it be replaced by some form of a corporation profits tax "not only on the grounds of the government's revenue needs, but upon grounds of equality and justice." The corporation profits, the secretary continues, should not be allowed to escape with a tax of 10 per cent while other tax payers are subjected to taxes on their incomes ranging as high as 70 per cent.

Mr. Houston again urges the necessity for rigid economy in government expenditure, asserting that only by conserving the finances carefully can the expenditures be kept within the \$4,000,000,000 annually, which he suggests should be the basis for a revenue program. He is hopeful, however, that with the heavy burdens placed by the Transportation Act, out of the way there will be a substantial excess shown by government receipts over expenditure.

### Pay Victory Notes in Spring

Mr. Houston tells congress that the heavy payments required by the Transportation Act had "disarranged the government's fiscal plans" but he believes early spring will witness final settlement of the claims of the railroads up to \$30,000 where the maximum of 20 per cent on saved income is reached. From \$30,000 to \$40,000 the rates would be 20 per cent on the roads under the guaranty provisions and that the treasury then can proceed with its previously announced program of meeting and retiring the Savings Certificates, amounting to \$800,000,000 and the Victory Note issue which aggregates \$4,500,000,000.

Through operations of the sinking fund use of the small repayments by foreign governments on loans, and the employment of certain salvage returns to the treasury, it has retired \$1,704,800,150 in bonds, Mr. Houston says, saving \$100,000,000 on the transactions by buying in the open markets. Of the amount purchased, bonds aggregating \$119,100,000 were retired from the funds repaid by the foreign governments.

Lessons of the World War, Mr. Houston says, have shown the need for the transfer of some of the treasury activities to other departments. Five bureaus, War Risk Insurance, Prohibition, Public Health Service, Supervising Architect and the General Supply Committee, are in no way related to the fiscal operations of the government he says, and urges that they be placed under other jurisdiction. The request he adds, is unusual for few if any other executive department heads have been willing to see their departments dismembered. His own request, he says, demands the more attention for this reason.

In connection with this suggested reorganization, the secretary asks that the position of under secretary of the treasury be created at a salary of \$10,000. He recommends also an increase in the salaries of the assistant secretaries from \$5,000 to \$7,500.

### Federal Budget System

Mr. Houston strongly urges the establishment of a federal budget system declaring that unless such a plan is adopted the financial burdens of the people will be greatly increased through "the piecemeal methods of handling appropriations without regard for or relation to income of the government."

Reviewing the loans to foreign governments, Mr. Houston says the American government advanced in cash between April 24, 1917 and Nov. 15, 1920 a total of \$9,580,823,077. Of this amount approximately \$163,000,000 has been advanced since Nov. 15, 1919, under credits previously established

to five foreign governments. Of this France received \$110,000,000; Italy \$20,410,000; Greece, \$15,000,000; Belgium, \$10,460,000 and Czechoslovakia \$8,500,000.

The Treasury has yet reached no determination as to the form which the obligations of the foreign governments will take, Mr. Houston says, but he recommends they be allowed to extend until June 1947, at which time they must be paid under existing law. The foreign governments, the secretary says, "began the payment by whatever arrangements they deem best suited by their individual requirements."

### Public Demands that Business Advertise.

Modern business depends upon many things, the most important of which is advertising. If in the past advertising was not essential to commercial success, today it is, because the leading concerns throughout the country have adopted it as the most satisfactory and economical method of reaching the public, and the smaller concerns have been forced to follow the lead of their progressive competitors.

The art of advertising has been developed to such an extent that the buying public is suspicious of an organization that does not advertise. Maybe this is fair, maybe not; but it is a cold fact.

"Flare advertising" attracts although consistent advertising is the most profitable in the long run. Recently we heard this conversation, which is illustrative of the point:

"If you inherited ten million dollars and decided to buy your wife the finest diamond ring on sale, where would you go to purchase it?" asked one man of his friends.

Without hesitation the friend named a jewelry establishment in New York. "Why?"

"Well, in the first place, it is the only large jewelry concern I know anything about."

"What do you know about it?"

"Oh, I have been reading its advertisements for years!"—and he considered that proof enough of its business integrity.

A soft drink concern started out in Atlanta with a capital of \$50,000. It advertised regularly and attractively. It kept its name constantly before the public eye. It overlooked no opportunity to reach the people. In a recent statement it was disclosed that it had increased its assets by \$1,370,000 since the previous statement, and it is now worth \$6,572,647. It has \$3,283,000 in real estate and a surplus of \$2,924,808.

An automobile corporation reports increased sales of over \$13,000,000 for the past year. Credit is given to advertising. A cereal company which advertises extensively reports a gain of \$1,356,972 in gross earnings. This is an increase of 67 per cent in two years.

A biscuit company last year decreased its advertising appropriation. In one year profits shrunk from \$731,172 to \$422,371.

Truthful advertising is being demanded more and more by the public, and advertisers realize the advantage of honest representation. The fake advertiser is fast becoming a type of the past. He can not compete with the houses that have proved repeatedly their policies of rigid adherence to the facts.

Experience's answer to the old question, "Does Advertising Pay?" is in the affirmative. It does pay. Furthermore, it is absolutely essential. The public demands it.

### Notice To Readers And Advertisers

Commencing at once, all advertising copy for the Tribune must be received before Wednesday night preceding the regular Thursday issue.

A longer postponement of this rule is no longer possible. The interests of subscribers and advertisers alike make it imperative. During recent weeks an unprecedented rush of work has so taxed the mechanical facilities of the paper that late runs have been unavoidable. And a paper must get out on time to get maximum results to the advertiser.

Getting in advertising and all other copy in time will also mean better typographical work, cleaner proofs and a better made-up paper, all of vast benefit to the advertiser and reader alike.

This rule goes into effect at once, and there can be no variations.

Joe Worthington has decided to abandon the "city life" of Tampa and become the possessor of a country estate. He will conduct the destinies of the Lake Wales Highlander, taking the places left vacant by the untimely death of Harry Gann. Strange how the boy on the farm longs for city life and on the other hand, every man in a city office longs for the farm. Luck to you Jed. You have at last come to your senses.

Kissimmee's postmistress has resigned and married. Now if the Republicans want to fill the job they have a clear field, but we have learned that the exservice man we supposed was open for the place (having held that position once before) went back to England, and renounced our Uncle Sam, and of course since he is on the Great Britain's pension roll, won't be in the "market" for that job. The question now is will the Republican majority in the United States Senate confirm a recess, or unexpired term of appointment of some Kissimmee Democrat that Wilson might name for the Kissimmee postoffice. We believe that the appointment of a Democrat will be held up.

### FEDERAL COURT RULES

#### PROHIBITION AGENTS CANT SEARCH PROPERTY AT WILL

The United States District Court for Oregon (267 Federal Report, Page 803) recently contributed an important decision to the many cases decided within the last two years, dealing with the enforcement of the national prohibition law. The court held that a search warrant for the purpose of searching premises for apparatus used for illicit distilling of liquor was illegal and insufficient to justify a search where the affidavit for warrant alleged that the affiant "has good reason to believe and does verily believe" that a fraud upon the United States revenue is being committed by the use of a certain particularly described dwelling owned by the person named and in which it is further stated that a search of the premises would discover illicit distilling apparatus.

The court in case, said that such a search warrant did not comply with the fourth amendment to the Constitution of the United States, which prohibits the issuance of search warrants, except upon probable cause supported by oath, and describing a place to be searched, and that the affidavit for warrant, to comply with the Constitution, must not merely state belief of the party applying therefor as to the illegal use of the premises, but must state pertinent facts from which the magistrate may himself determine the existence of probable cause to issue the search warrant. The federal court further held that persons occupying premises sought to be searched on such an illicit search warrant, could not be convicted for using deadly weapons in resisting revenue officers making such illegal search.

The effect of this decision is that the federal prohibition and revenue officers cannot, at will, make searches and seizure on private property merely upon affidavits that they have reason to believe it is being used in violation of the prohibition law, but must show specific facts justifying their alleged belief.

Did you know that the cocklebur carried a double-barreled gun? Every bur carries two seeds, only one of which sprouts the first year. Even when the product of that seed has been killed the other will be in shape to make trouble the next season. The United States Department of Agriculture has a circular on the cocklebur—how to get rid of it.

There's no peace and little rest for the one who suffers from bad back, and distressing urinary disorders. The people around here recommend Doan's Kidney Pills. Be guided by their experience.

F. B. Osborn, carpenter, 402 W. America st., Orlando, Fla., says: "Heavy lifting weakened my kidneys and caused backache. At times when I stooped over to pick up a timber, sharp pains struck me across the small of my back and I could scarcely straighten again. I laid this trouble to lumber. My kidneys acted too freely too. I had to get up often nights on account of this. Hearing of Doan's Kidney Pills I got a box and began taking them. They knocked the lumber out of me and made my kidneys well again."

## "WELL, OLD MAN, HOW ARE YOU?"

If Your Blood Is Rich and Red You Say, "Fine"

### ENTHUSIASM IS RED-BLOODED

Try Pepto-Mangan If You Feel Weak and Look Pale

Sometimes you are almost down and out. You know you are not really sick, but you have a petered-out feeling. You eat little. You drag along. In the morning you look at your face in the mirror. You feel years older when you see how pale and haggard you are.

It is your blood. It needs red corpuscles. Instead of poking along half sick, why don't you try taking Pepto-Mangan, the blood tonic? It has just the ingredients weak blood needs. With red blood your energy and enthusiasm will return. You eat better. You tackle work and achieve.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is sold in both liquid and tablet form. The medicinal properties are identical.

Sold at any drug store. But be sure to get the genuine Pepto-Mangan—"Gude's." Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package. Adv.

### NEW ENGLAND SOCIETY

Mr. and Mrs. E. S. Nesbit of Seabright, New Jersey have arrived in St. Cloud to spend the winter. They have been residents in St. Cloud for the past four years and usually arrive before the holidays.

Mrs. Beulah Thompson of Wixon, Michigan arrived in St. Cloud last Saturday and has taken up her residence in her beautiful home on Missouri avenue between Tenth and Eleventh streets.

S. I. Treat of Coldwater, Michigan, was among the automobile campers in St. Cloud last week, he having a comfortable house on wheels named the "Veteran" in which he has made his tour to Florida.

A Grand Masquerade Ball will be given by Mrs. E. F. Mann at the G.A.R. Hall, Thursday night, Jan. 6, 1921. As it is to be an exclusive dance, tickets must be reserved in advance. A prize will be given for the best lady or gentleman costume. 11-12

Mrs. I. N. Skillman and daughter, Mrs. W. E. Broome of North Wales, Pa., will leave Mt. Healthy, Ohio for the Wonder City on December 14th, and will be located on Missouri avenue with Mrs. E. M. Franklin, where they shall be glad to meet their many friends.

Mr. Louis Harris of Milford, Conn., is a guest at the St. Cloud Hotel and will soon open an office in St. Cloud to practise law. This information will be received with a great deal of pleasure to St. Cloud people as there has been no resident attorney here for some time, and no doubt Mr. Harris will find many clients as soon as he announces the opening of his office.

Mrs. P. A. Bird and son and wife, Mr. and Mrs. H. A. Bird, and their daughter, arrived in St. Cloud last Thursday morning from Lake Hopatcong, N. J. They have spent several winters in St. Cloud, and are here for the winter. They have opened a novelty shop and Woman's Exchange in the Hastings building, corner of Penn. avenue and Eleventh street.

Comrade J. W. Rankin, who resides on Massachusetts avenue between 4th and 5th streets, reports having picked the first ripe strawberries for this season. To our knowledge so far these were really the first picked in this community, no one else having reported to the contrary, but it is well known that there are many fine berry patches hereabouts of which no reports ever reached the Tribune. In fact it is not an unusual thing for St. Cloudites to pluck berries, fruit and succulent vegetables at most any time of the year.

Comrade J. F. Emert and wife of Dawson, Ohio, arrived in the city on Friday evening to spend the winter, and are located in their bungalow on Maryland avenue and Sixteenth street. Comrade Emert served in the Civil

War in Company B, 50th Ohio Reserves and Company F, Freeman's Body-Guard. When he was arriving at his bungalow he found nearly everything carried away but the well and orange trees, and that he even had to buy a new crock stove before he could get his supper. This is very bad and such outrages should be investigated.

Mr. Earl Lupfer of Kissimmee spent a few hours in St. Cloud on business last Saturday.

Mr. O'Neill of the O'Neill Garage of Delray was in town on business on last Monday.

Mrs. Clint Simmons of Kissimmee spent Saturday and Sunday in town visiting relatives.

Dr. Rivers of Kissimmee was in the city on Saturday last on a business trip, returning the same day.

Mr. R. Lucas of this city spent the day in Kissimmee Saturday, attending to business matters.

Mrs. C. M. Hartzog returned to her home at Holopaw after a visit to her old home in Alabama.

Ell Bass of Kissimmee was a visitor in St. Cloud one day last week, mingling business and pleasure.

Mr. Ralph Reynolds, whose work is at Winter Garden, spent Saturday and Sunday with his family in this city.

See our attractive Christmas gifts for each member of the family, at the St. Cloud Pharmacy. 17-18

Miss Artie Montsdeoca who resides at Haines City, spent Sunday visiting her mother here in the city.

Miss Edith Jenness was a guest on Wednesday last of Mrs. C. L. Bandy of Kissimmee, returning home the following day.

Mr. Hartzog of the Lake Wales Naval Stores Co., of Holopaw, was in town Wednesday in the interest of his company.

Mrs. M. A. Campbell of Wellington, Ohio and niece, Miss Cora Willis of Green Springs, O., arrived in St. Cloud Wednesday afternoon to spend the winter.

Mrs. Imogene Hibbard of Rome, N. Y., and Mrs. G. O. Barnes of Cortland, N. Y., are guests at Hotel St. Cloud for the season. Mrs. Barnes spent a pleasant winter here last season.

A tremendous amount of fruit is moving to northern points, in the way of Christmas boxes, the local express office being almost swamped with daily shipments. This, no doubt, attests the fine quality of the fruit in the St. Cloud vicinity.

A party of St. Cloud folk composed of H. C. Hartley, A. F. Bass and Ell Bass made a little hunting trip to Camp Hammock on last Saturday. They did not report their success, but it is safe to say they were amply rewarded for their efforts.

Mrs. J. O. Vreeland and Mrs. Daniel Dyer of Providence, R. I., spent a pleasant week at St. Augustine and Jacksonville. They arrived in Kissimmee Tuesday evening and spent the night there. They enjoyed their trip very much, and arrived home Wednesday morning, to remain for the winter.

Mr. and Mrs. C. F. Kinerson leave for St. Cloud on December 13th. They will stop off at Gardner, Mass., to visit Mrs. Kinerson's brother, Mr. Fred Warner, and will also stop enroute at Wash-

## CAN IT BE POSSIBLE THAT THERE ARE NO MORE CHILDLESS HOMES IN FLORIDA?

For several months past The Children's Home Society of Florida which is doing a state-wide undenominational work for the orphan and homeless children of the entire state providing for over **TWELVE HUNDRED** such children, **EACH YEAR**, has found it exceedingly difficult to find good family homes for its homeless children, especially children from **SIX to FIFTEEN** years of age. As a result its Receiving Home in Jacksonville is crowded to its utmost capacity, children sleeping two on a little cot in many cases.

The question therefore arises—are there no more childless homes in Florida? Are there no families who have one child who want another to be a little brother or sister? Are there no more generous hearted people in the state who will perform the greatest service that can be performed on earth—that of giving a good home to one or more homeless children?

The above is a picture of just a small part of the big family of **HOMELESS CHILDREN** at the Receiving Home of The Children's Home Society of

Florida at Jacksonville. No finer sweeter, brighter or more lovable children can be found anywhere on earth. Try one or two and see for yourself.

### FOR THE FOLKS WHO POSITIVELY CANNOT TAKE A HOMELESS CHILD OR CHILDREN INTO THEIR HOME

We want to offer an opportunity to help us in a very definite way. Just now as **CHRISTMAS TIME** draws near, when **EVERYBODY** wants to do **SOMETHING** to make **SOMEBODY ELSE HAPPY**.

**OUR GREATEST AND IMMEDIATE NEED IS MONEY.** We received enough money in response to our Thanksgiving appeal to entirely wipe out our deficit for 1920, and if we can only raise the **SIX THOUSAND DOLLARS** that it will take to meet our December expenses we will finish the greatest year of service that we have yet rendered **FREE OF DEBT**. During this year (1920) we will have helped over two hundred children from one day old on up, and from every creed, and from every portion of the State. Don't you agree with us that this was **SOME** job?

Now we can use the largest or smallest amount that **YOU** can send and we can use all you can secure for us from your church, lodge, club, Sunday School, or other organization for us. We **REALLY NEED** all we can **POSSIBLY SECURE**. Send all money, checks, etc., to our treasurer, R. V. Covington, 428 St. James Bldg., Jacksonville, Fla., it will be warmly welcomed and will help us provide a **REAL CHRISTMAS** for scores of little helpless and homeless children

most of whom have **NEVER** known what a **REAL CHRISTMAS** was.

**WE ALSO NEED BADLY**—Children's clothes, food etc. There never has been a year in which we have **RECEIVED LESS** and **NEEDED MORE** children's clothing of all kind, shapes and sizes, and of course we can use an endless quantity of preserves, jellies, syrup, fruits, vegetables, canned goods, staple groceries, meats, chicken, etc. Get up a box or a barrel, or parcel post package for our kiddies, and send it either to our Children's Receiving Home 1944 Riverside Ave., Jacksonville, or send it to our Children's Boarding Home, 1229 Osceola street, Jacksonville, Fla. We have a big family of little ones in both places and will gladly welcome anything that the children can eat, wear or enjoy.

**MAKE YOUR OWN CHRISTMAS HAPPIER BY DOING SOMETHING FOR OUR BIG FAMILY OF HOMELESS CHILDREN WHOSE CHRISTMAS JOY DEPENDS ENTIRELY ON WHAT YOU AND OTHER GOOD FOLKS MAY DO FOR THEM, AND PLEASE DO IT NOW BEFORE YOU FORGET.**

**EARNESTLY PLEADING** for **SOME** help from **EVERY** man woman, and child in Florida, and from **EVERY** church, Sunday School, lodge, club, society or organization of every kind and description, we are yours to **SERVE**,

## OBSERVATIONS

By Moses Folsom

The sycamore tree produces more litter than any other known tree. It has a large leaf and at this time when the leaves are falling one tree will drop enough to litter up a whole block. Besides, its bark peels off to add to the debris, and then the seed balls drop to be crushed under the feet of pedestrians. Then all winter the tree stands stark and bare, a dismal object, to discount the claim to northern visitors that Florida is a land of perennial verdure. The sycamore tree is a fast grower, and pretty, and all right in its place, in the woods to produce humus and soil from its droppings, but it is out of place on the streets and in the yards of a city or town if cleanliness is desired. Clean-up days can only be reduced in number and drudgery decreased by getting rid of sycamore trees on the city streets.

More than sixty political parties have had presidential candidates since the first conventions were held in the 30's. There were six candidates in the recent campaign, two of them by the name of Cox. President-elect Harding is a Baptist, the first time that that leading denomination ever had a successful candidate. If Gov. Cox had been elected he would have been the 8th Episcopalian in the presidential office. The Unitarians have had four, the Presbyterians 8, the Methodists 4, the Reformed Dutch 2, and the Disciples 1.

The jay walker is a person who cuts diagonally across the street at a crossing, and takes the risk of being hit from four directions by an automobile. When one goes at right angles the person only has to look in two directions instead of four, and the danger is reduced one-half.

It is not possible to quote percentages on the number of casualties which result from the carelessness and recklessness of automobile drivers. There are pedestrians who seem to go to sleep right in the path of danger. Even careful driving will not prevent trouble when people jay-walk, with their thoughts in heaven or somewhere else, and their eyes glued to the ground. Mind your step when in the street and look and listen.

In the seemingly long ago spring of 1914 Europe had 24 separate governments, counting Germany as one with its 25 states. Now there are 35, counting Germany as one with 18 states. If Germany should further break up the confusion for students of geography would be increased. Besides the new governments in Europe vague entities are struggling to establish themselves in Asia and Africa. Most of the new governments are in a condition of flux, and none are satisfied. They all hate each other. Poland, one of the new governments, has been at war with its neighbors since the armistice two years ago. The old world has plenty of trouble before it.

Do you believe that Friday is an unlucky day and that thirteen is an unlucky number? These, with a hundred other foolish notions are half noticed survivals among ourselves of once vivid beliefs in the minds of our primitive ancestors, when they lived in caves and under the trees, and feared the thunder, the lightning, the winds and the dark. They have passed along from one generation to another like coins handed from one person to another, until worn and obliterated, the original signification is lost. Oliver Wendell Holmes in his "Table Talks," said: "We are all tattooed in our cradles with the beliefs of our tribe; the record may seem superficial, but it is undeniable. You can not educate a man wholly out of the superstitious fears which were implanted in his imagination, no matter how utterly his reason may reject them."

Speaking of habits and customs you have noticed that the 4th hour on the face of clocks and watches is marked IIII instead of IV. When Henry Vick back in 1370 made a clock and presented it to Charles V of France, surnamed the Wise, he objected to IV and said it should be IIII. By this command the change was made and it has persisted to this day. No modern manufacturer has had the courage or sense to correct it. That shows how mankind sticks to errors and superstitions.

The strength of American life is in the character of the hosts of common folks who have no special recognition in political and fashionable affairs. The world is perplexed, but no new "movement" is necessary to save it. All that is needed is for men and women to meet every situation in the spirit of the Master, who centuries ago promised as recorded in Acts 1:8, that

"ye shall receive power, when the Holy Spirit is come upon you; and ye shall be my witnesses both in Jerusalem and in all Judea and Samaria, and until the uttermost part of the earth." No great program or campaign can ever take the place of faith, hope and love burning in individual hearts. It is by personal service and sacrifices that the world is to be redeemed. God is imperative in the life of man and happy the people who know this fundamental law.

### OUR COLOSSAL ANNUAL INTEREST BILL

The United States owes in round numbers twenty-four billion dollars. It pays out in interest charges on this debt about a billion dollars a year.

The United States has got to begin to get itself rapidly out of debt or the people of the United States are going to keep on hunting for new government business managers.

To pay off its debt or to meet other charges against it the government can't make money like a steel corporation or a railroad or a business house. Either it must pay off the debt by raising more revenues, taxing the public more heavily, or it must take the revenues it has and instead of spending them in other ways, use them to clear the debt. If the United States government does not thus get itself out of debt by the practice of rigid economies instead of with heavier levies of taxes the American public will be forced from the frying pan into the fire.

When the government cuts its debts it makes a double saving for itself and it makes a double saving for the public. The government saves doubly because every time it slices something off the principal it lessens the amount of interest it has to pay, and again because as the government's debt grows less the government's credit grows stronger. As the government's credit grows stronger it can borrow at a lower interest rate for refunding and other purposes.

The people save doubly, because

less money is taken out of them in direct taxes paid into the treasury and again because less money is taken out of them indirectly by high living costs which result from high taxes.

#### Trade With Australia Grows

Trade between this country and Australia is showing a healthy growth, according to figures supplied to the department of commerce by A. W. Ferrin, trade commissioner, who is at Melbourne. They cover imports and exports for the first quarter of the current year, and show the imports during

that period to have been about \$27,775,000, against exports to this country of approximately \$16,350,000. February exports nearly equalled in value the totals for January and March, and in that month the outgoing shipments exceeded the imports. In the same month, however, the value of the imports was less than half of the goods brought in during March.

### SHOULD ALL BE NEIGHBORLY

Rent hogs have a social value rather overlooked in the turmoil. Though hardly attaining eminence as a moral force they remain a persuasive fact for a city neighborhood. They have made a social whole of many a four-walled community that had been merely an accidental aggregation. Common oppression makes humanity kin, including even the inmates of an apartment house. Neighborliness, in short, has begun to mean something.

Neighborliness is at once the kindest and the most powerful organization in our tradition. Neighborhood organizations, if not captured by schemers with private ends to serve, is the best basis for consumers' organizations in general. That American class called neighbors, the great unwieldy, battered 90 per cent has suffered much of late through the lack of organized effort in its own behalf.

Neighborhood association will ameliorate the predatory ethics of urban life. When neighbors meet in public school assembly halls for community association in economic study, in politics, in music, in drama, in educational problems, good government and good living are likely to be furthered.

Better neighborhood understandings leading to the intelligent co-operative effort are one of outstanding needs.—Chicago Daily News.

## Is there a weak spot in your printing?

**I**F there is, it means a treacherous little leak in your earnings. It may be that Ben Franklin had printing itself in mind when he said "small leaks will sink great ships." You never can tell—Ben was a wise old printer.

But if you're not up on all the kinks of the printing game, there could be a leak and you wouldn't know it.

That's where we can be of service. We know printing from first to last—good printing and bad printing. And what is more, we know it never pays—you or us—to do any kind of printing but the best.

If the printing you are doing doesn't seem to justify the outlay of money involved, put your problem up to us.

If there is a weak spot in your printing we can put our finger on it, and suggest a remedy.

JUDGE W. H. BAKER, President R. V. COVINGTON, Treasurer  
MARCUS C. FAGG, State Supt.

# STATE BOARD AND COM MITTES ARE APPOINTED BY FLORIDA BAPTISTS

WANT DRY ENFORCEMENT—ENDORSE WORK AT STETSON—GREAT INCREASE OF MEMBERSHIP OF BAPTIST CHURCHES OF STATE.

KISSIMMEE—The Florida Baptist convention closed Thursday an annual meeting in Kissimmee which was equal in attendance and interest to that held last year in Jacksonville, the enrollment cards showing that 436 messengers and visitors enrolled with the secretary. The reports on all activities showed an amount of work never approached in the years previous, and questions of vital importance were handled by the convention up to the closing hour.

On Thursday morning, Judge A. R. Carver of Lakeland read the report on temperance and law enforcement. At its close, the convention passed a resolution endorsing absolute enforcement of the state and federal prohibition laws.

Under the head of discussion of foreign missions, special stress was laid on the project of immediate relief of the destitute in central Europe.

be carried forward by the Southern Baptists, Northern Baptists and Baptists of England. The share allotted to the Southern Baptists is \$2,500,000 to be raised in the next thirty days. The funds are to be administered thru the regular boards of the churches so that not one cent of administration expense is necessary.

The work at Stetson University was heartily endorsed by the convention. Dr. Lincoln Hully reported an attendance on the opening day of this school of 600, which is an increase of 100 over the total attendance last year. The dormitories are crowded and more are needed. An excellent religious tone prevails there, Dr. Hully stated. There is now excellent prospects of realization of a \$300,000 endowment in the near future. It is notable that the attitude of the convention toward Stetson is one of cordial support. Members of the faculty attending the convention aside from Dr. Hully were Dr. J. Archy Smith, Dr. C. S. Farriss, Mrs. W. M. Bashlin.

On Thursday afternoon a movement was launched in the convention to provide a fund of \$2,500 by private subscription to build a steam laundry building at the orphan's home at Arcadia, which will likely be carried thru with no difficulty.

Of great importance to the convention and every Baptist in Florida was the report of the work of the state board of missions, which showed a big advance for the year just passed. The total membership in the 748 Baptist churches was 68,800 which was a net gain of 3,600 above the figures shown last year. Since 1900 the Baptist church membership has increased 145 per cent. since that time.

The treasurers report shows all bills paid with a balance of over \$16,000 in the treasury.

The personnel of the state board, which was elected at the Thursday meeting is as follows:

Rev. S. P. Mahoney, Leesburg; H. F. Womble, Chipley; Rev. W. Raleigh, White Lake City; L. E. Godwin, Maxville; H. C. Peoples, Duques; Rev. Bunyan Stevens, Tallahassee; Frank Wilson, DeFuniak Springs; Rev. J. E. Hodge, Newberry; Rev. H. S. Howard, Cocoa; H. H. Laramore, Glen St. Mary; Raymond Ware, Mayo; Hon. G. W. Scofield, Inverness; Dr. J. L. White, Miami; Rev. S. B. Cole, Madison; Rev. E. D. Boyer, Lawley; E. M. Maglia, Milton; Rev. C. W. Burnett, Trilby; Rev. J. E. Trice, Arcadia; Rev. A. C. Odum, Jr., Pensacola; A. J. Wilder, Juniper; Dr. George Hyman, Sanford; Rev. R. E. Reed, Bartow; Rev. L. F. Savell, Palatka; G. L. Dorman, Live Oak; Dr. W. C. Golden, Tampa; Rev. J. Dean Adeock, Orlando; A. A. Myers, Chipley; C. W. Duke, Tampa; E. D. Rogers, Pensacola; Dr. W. L. C. Mahon, Jacksonville; F. F. Hoffman, Key West; Dr. W. A. Hobson, Dr. C. H. S. Jackson, Rev. E. M. Henderson, Robert Barker, A. P. Anthony, Jacksonville.

The following are committees which have been appointed by the convention to serve for the coming year.

## FARMER HAD REAL THING

"Say, Sheriff," said a voice over the telephone to the sheriff of a nearby Indiana county a few days ago, "this is Ike Stubbles. Well, Jim Stubbles, a neighbor of mine that I have been havin' trouble with, is on his way to town right now with a load of 'white mule.' He's goin' by the Cornbread road and if you hurry you and your men will have plenty of time to ketch him before he reaches town."

"He's got the 'mule' all covered up with a canvass tarpaulin on the back of his wagon."

The sheriff swore in two deputies and went to the Cornbread road.

The officers saw approaching them in leisurely fashion a big farm wagon drawn by two horses that were driven by a man answering the description of Stubbles.

"Halt, in the name of the law!" ordered the sheriff. "Have you got a load of 'white mule'?"

"I sure have. I gotta admit it," replied the farmer who by this time sensed that somebody was being made the victim of a joke, "look fer yourself, sheriff, under the cover there."

The sheriff raised the tarpaulin and gazed on the melancholy form of a real 'white mule' which had passed away following an attack of colic and which even then was on its way to a reduction plant in the nearby city.—Indianapolis News

## MILL GIRLS MARRY YOUNG

A village without an old maid sounds somewhat like a fairy tale, but several such places exist below the Mason and Dixon line.

"All the women get married in the mill villages of South Carolina, and at an early age," says a Y. W. C. A. industrial secretary stationed at Greenville, where she works among the girls in thirteen mills.

Perhaps economic independence has something to do with it, as marriage is not looked upon by the girls as a meal ticket, but as a fifty-fifty proposition. The wives do not give up their jobs, but keep right on working.

That the textile industry in South Carolina absorbs a large number of women as well as men workers is not surprising, considering the fact that there are as many as thirteen mills in twenty-nine counties. With the population of the state estimated at 1,500,015 people, 62,904 are mill workers and 190,268 are dependents on mill pay. The valuation of the mills is \$75,000,000 and the weekly pay roll is \$1,000,000.

## AN EYE OUT FOR DRINKS

If any reader thinks this little story is far-fetched he is right—we got it direct from distant Shanghai. A benevolent lady was giving a dinner party to a number of soldiers who had been half blinded and otherwise wounded in the war, and during the repast the hostess was astonished to receive a glass eye rolling on a plate.

"It's from my pal, Bill," explained one of the guests politely. "He sent it up to see if there are any drinks at your end of the table, 'cos there isn't any at his."—Boston Transcript.

people. Four-fifths of the telephones of the world are in the United States. No other country has the exchange system developed to give such convenient service. In some of the most progressive European countries the exchange system is so cumbersome that it usually requires ten or fifteen minutes to get a connection.

The telephone in this country has expedited the transaction of business. Without our efficient telephone service, the work of most of our great industries would be slowed up and made expensive. No other country has a rural system that compares with ours. The telephone has definitely affected and moulded our business methods and our social and domestic life.—Alfred Westfield, Colorado Agricultural College.

## OIL STRIKE? NEW RUMOR IS AFLOAT

NO WILD RUSH TO MYTHICAL FIELDS OF "LIQUID GOLD"—INDICATIONS ARE GOOD.

Rumors of an oil strike in West Florida—location indefinite—were to be heard on the streets of Jacksonville Friday though there was a total absence of the to-be-expected frenzied rush for the fields of the "liquid gold." It is definitely known here, however, that several companies drilling in the western part of the state have struck oil sand and that in some localities where operations are in progress indications are better than fair for production.

Florida has been considered a potential oil state for a number of years and much money has been spent in oil operations at various points. So far as is known no producing wells have been brought in, though from time to time there have been rumors that a large corporation operating at many places in the world had struck oil "somewhere" in the western part of the state. However, these rumors

OBITUARY

LEWIS EDMOND FIRKINS

Lewis Edmond Firkins was born in Illinois on February 29, 1857, and died in St. Cloud, Florida, December 9th, 1920.

When he was 19 years of age he went to Nebraska, then a new country, and took up land and followed the occupation of a farmer. Mrs. Firkins died fifteen years ago, and soon after Mr. Firkins gave up the farm and eight years ago came to St. Cloud to make his home.

He was the father of six children, four of whom are now living, and adopted three other children all of whom are living. All these, save Goldie, are in the North scattered through the states of Colorado, Nebraska and Minnesota. There are also three brothers, one in Illinois, one in Iowa and the other in Idaho.

During recent years Mr. Firkins has been in poor health and at times suffering much. In all this time Miss Goldie has been his housekeeper and nurse and given him constant, faithful care.

The remains were sent to Burwell, Nebraska, for interment.

Card Of Thanks

The undersigned wishes to express through these columns her kindest thanks and sincerest appreciation for the many favors and courtesies shown her during her siege of grief, and for the lovely flowers and kindly expressions which go so far to relieve any burden. For these she feels truly grateful.

GOLDIE FIRKINS.

AN ORDINANCE

An ordinance fixing the rate of interest and the date of maturity of improvement certificates to be issued in pursuance of Resolution adopted by the city council August 23rd, 1920.

Be It Ordained by the Council of the City of St. Cloud, Florida:

Section 1. The clerk of the city of St. Cloud, Florida is hereby authorized to issue improvement certificates in accordance with the terms of the resolution adopted by the city council on August 23rd, 1920 covering for paving on New York avenue against all of such property described in said resolution on which the cost of said paving has not been paid.

Section 2. The rate of interest to be charged on said certificates shall be eight per cent per annum, said interest to be computed from November 1st, 1920.

Section 3. The term for which said certificates shall be issued shall be five years.

Section 4. Any of the said certificates may be redeemed on or before the maturity thereof provided at least three years interest on same is paid at time of such redemption.

Section 5. The interest on all of said certificates issued shall be payable annually.

Section 6. The certificates issued under the provisions of Section 63 of the charter of said city, and the resolution of said council of August 23rd, 1920 and this ordinance shall be payable in equal annual installments.

Read the first time and upon unanimous consent read the second and third times and passed this the 13th day of December, A. D. 1920.

N. H. WASHBURN, President of Council

FRED B. KENNEY, (pro tem) City Clerk.

Approved this 13th day of December, A. D. 1920.

B. F. RALLS, Mayor

RESOLUTION

Be It Resolved by the City Council of the City of St. Cloud, Florida, and concurred in by the Mayor of said city:

That a sidewalk be laid and constructed on the south side of Eighth street from New York avenue to the alley between New York avenue and Massachusetts avenue, said sidewalk to be four feet in width and eight inches from the property or lot line, and to be constructed of material and work done as provided by Ordinance No. 73, heretofore passed, requiring sidewalks to be constructed along and in front of all lots within the city limits and that said sidewalk be completed within 30 days from the date of this Resolution.

Work not completed by the abutting property owners will be paid for by the city and shall become a lien against the abutting property, with five per cent added and all costs included and shall be regularly filed and draw 6 per cent interest per annum from the date of payment by the city as provided by law. Provided no sidewalk shall be laid and paid for by the City until 30 days shall have elapsed.

Passed this 13th day of December A. D. 1920.

N. H. WASHBURN, President of Council

FRED B. KENNEY, (pro tem) City Clerk.

Concurred in by: Mayor

F. F. Clark has complained to the Tribune about the depth of the curbstone at Florida and 11th street on which he met with an accident at that place a few days ago, in which a small bone in his left foot was dislocated. The injury was painful but Mr. Clark is able to be out.

L. L. MITCHELL POST G. A. R.

The L. L. Mitchell Post No. 34, met in regular session at G. A. R. Hall, Commander Holden in the chair. The officers were all present and in their respective places. Minutes of previous meeting read and accepted. The Adjutant and Quartermaster reports were read and approved. No general orders. Sick comrades reported were Robb, Miller, Holliday and Huggert. Comrade Cottrill died since last meeting and was buried with military honors.

The report of the committee for flags and markers for graves was laid on table and committee discharged. State Department Commander I. E. Spencer being with us was called on for a few remarks on how the department had progressed this year, also if the place of meeting had been changed from Lynn Haven, but no satisfactory report was made, as that matter was in hands of the council of administration to pass on the change if any was to be made, which looks very doubtful at present.

Rules were suspended and delegates and alternates were selected by acclamation, after which the post adjourned to the hall below, where the commander called the meeting to order, and we proceeded to hear short talks from the Department Commander and others.

Two hundred members and visitors were present at the meeting. Adjourned informally to meet in one week, rain or shine. All tourists members of the G. A. R. are welcome to be with us on Friday the 17th of December at 2:00 p.m.

YOUNG GIRLS WARNED AGAINST ROAMING ROMEO

Local authorities have been notified to watch the trains for a handsome young pirate who is said to be headed in the direction of St. Cloud. It is said that he is a dangerous character who has become notorious the country over for his many romantic escapades and women in particular are cautioned against his phillandering propensities. He is the adopted son of a wealthy industrial magnate and his latest conquest credits him with alienating the affections of the pretty young woman who recently married his aged father.

The name of this love pirate is not divulged but he is described as being about thirty, of straight athletic form, deep blue eyes, brown wavy hair, a straight nose, debonaire and dressed immaculately. He is expected here next week and the girls of St. Cloud will do well to carefully guard their affections during his stay.

Love Pirate Has Woman Companion

Following investigations on the part of a local business man, it was learned today that the reported probable visit of an adventurous young love pirate to St. Cloud is now a certainty and it is now rumored that the young culprit will be accompanied here by the pretty young woman who formerly was the wife of the young man's father.

According to the story following this couple, the young girl soon learned that her marriage to the industrial magnate was a mistake—that she did not really love him—that her youth and vivacity was irreconcilable with his old age and a disability, and that instead she was madly in love with his adopted son—youth, handsome and vigorous.

LATER: New light is shed on the mysterious young love pirate and his pretty young companion who will come to St. Cloud tomorrow. He is the popular star, Eugene O'Brien, and his leading lady, Lucille Lee Stewart. They are coming in Eugene O'Brien's second big picture, "Sealed Hearts," at the Palm Theatre for Saturday December 18th, 1920.

"Sealed Hearts" is an absorbing drama of tangled love with father and son both loving the same young woman. It portrays vividly the eternal triumph of youth over age. A story of the eternal triangle told in a different, gripping way. Don't miss it.

VETERANS ASSOCIATION

The Veterans Association held its regular meeting in G. A. R. Hall on Saturday afternoon, December 11th, at 2:00 o'clock, with President Kenney in the chair. Meeting opened by singing America by audience. Prayer by Chaplain Wescott, after which the minutes of the last meeting were read and approved. Song by choir, "When the Angels Call the Roll." Announcements were then in order. Meeting of Memorial Hall Association of the stockholders to be held on 1st Tuesday in January 1921. Several rooms were offered for rent, and announcement that Mrs. Veeder's collection of curios on Wisconsin avenue was worthy of going to see. Lost and found articles were reported. The auction of one apron and some grapefruit was held for benefit of hall debt.

The following new comers came forward and were introduced to the good people of St. Cloud and gave short talks which some of the kickers of St. Cloud would do well to stand up and take notice. Collection was taken and St. Cloud yell given, and the meeting was then turned over to the W. R. C. for the social hour, with Mrs. Rode as leader.

Song by Miss Edith Harrod, accompanied by Mrs. Earl Cowger, "Going Home," and for encore "Jim, Jim."

Duet by Mrs. Barber and Mrs. Buckmaster.

Song, Mrs. Barney, "Traumping Thru Berlin."

Music on violin, by Comrade Severson, on piccolo by Comrade Potter and on bones by Comrade Silla.
